## GIORGIO BAGNARA, FOUNDER AND CEO OF GIOBAGNARA

Born into a family renowned for cultivating for three generations the art of living, Giorgio Bagnara became passionate about his calling at a very early age. In the late Nineties, after noticing that leather from the fashion industry was not considered enough as material for home accessories, he founded GIOBAGNARA with the goal of applying it to a complete collection. Along with his wife, Vanessa, he decided to move his design studios and workshops in the old docks of the Port of Genoa where, surrounded by the essence and beauty of that location, the company took a significant step forward.

## GIOBAGNARA

A brand that is distinctive for elegantly designed creations that express luxury without ostentation, available in an uncommon and virtually limitless color palette of leathers and suede, and crafted to the highest standards using both traditional know-how and leading-edge technology. This approach to tradition and modernity led Giorgio Bagnara to experiment: he constantly pushes technical limits in his quest for objects that are both beautiful and relevant, and in doing so relies on the skills of the company's craftspeople. Very quickly, GIOBAGNARA became renowned for its expertise, and its founder became a partner of choice for a large number of interior decorators and yacht and jet designers who called upon his know-how for special commissions. In 2015, Giorgio Bagnara expanded its leather portfolio with the acquisition of the saddle leather specialist Rabitti 1969. Today, nearly two decades after its founding, GIOBAGNARA has one of the most comprehensive offers of leather home accessories on the market and is preparing to open a fresh chapter in its history.

## GLENN SESTIG

Glenn Sestig, born in 1968 in Ghent, Belgium, graduated from the Henri Van De Velde institute in Antwerp and in 1999 established a practice together with painter Bvardk. From the outset, their work focused on extreme precision, on a construction with such mastery of the architectural line, proportions and perspective that it is easy to forget the careful consideration that will have gone into their design and creation. In addition to the material and its interpretation, transparency and the play of reflection suggest, rather than illustrate, the endeavors that have resulted in the real grandeur of some projects, primarily places for public use. Glenn Sestig Architects is synonymous with contemporary chic. His work can be seen as unrelentingly urban and contemporary - materials are exclusive and its combinations are renewing and unique.

To give his work coherence, the architect uses his own method of calculation, a sort of mental model from which flow the intelligence, equilibrium and soul of a place. Each completed work is considered as a minor work of art wherein art and fashion are essential sources of inspiration. The architecture is no longer a movement in time but becomes a declaration of a global luxurious lifestyle. With regular publications in renowned magazines and recognition in global architectural awards, Glenn Sestig has earned his place as one of the most noticeable architects out there. Early commissions included shops, nightclubs and penthouses in Ghent, Antwerp and Brussels, but over the last couple of years the projects grew in size ranging from villas to hotels. Thanks to some magnificent projects with great exposure Glenn Sestig received international recognition with projects from Los Angeles to Tokyo.

## LLOYD COLLECTION

The cultural exchange between Flanders and the Republic of Genoa dates back to the 15th century when there were close ties between traders and bankers in the two countries. Flemish paintings and tapestries were avidly collected by the Genoese banking families.

At the beginning of the 17th century, Genoa rapidly became the financial centre of Europe and its patricians acted as a magnet for artists.

Peter Paul Rubens and Anthony van Dyck both visited the trading centre and immortalised its aristocracy in sumptuous portraits, influencing generations of artists. Moreover, Rubens copied the magnificent architecture of the Genoese palazzi in drawings he later published in book form.

In the furrow traced centuries ago, GIOBAGNARA commissioned Glenn Sestig architect to design a new range of products in which the craftsmen of Ligurian Coast and a Flemish Master meet again.

This is how Lloyd Collection was born.

The Belgian architect imagined this design as a blending of East and West, and therefore, it doesn't fit neatly into either lineage. As with all of his architecture, Sestig sees in this project the possibility of an interaction between elegance and substance. The resulting design is a decorative, hybrid creation where the succession of solid and void spaces breaks the monolithic vision.

Lloyd is a collection where natural elements such as dark-stained Canaletto walnut wood, travertine, cashmere and wool play a calm symphony of craftsmanship, serenity and aesthetics.
